

SL01A

Daylight Sensor

光感器

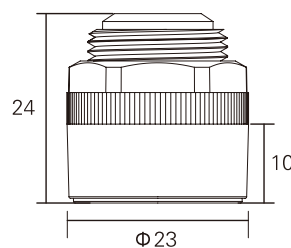

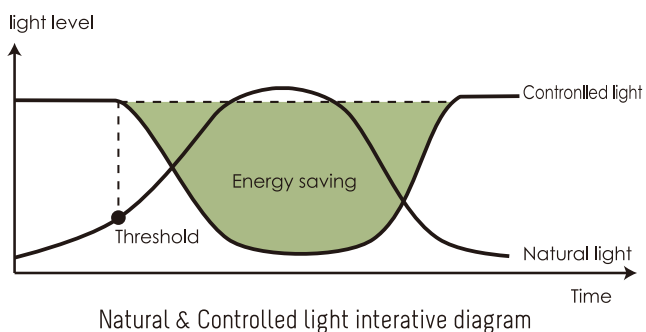

Features:

- High sensitive light sensor inside.
- Detect environmental luminance and control dimming automatically.
- Adjustable daylight sensor threshold.
- Wide detection area.
- Compatible with 1-10V dimming driver and microwave sensor.
- Compact size to suit various luminaires.
- Easy to install and suitable to meet various installation methods.

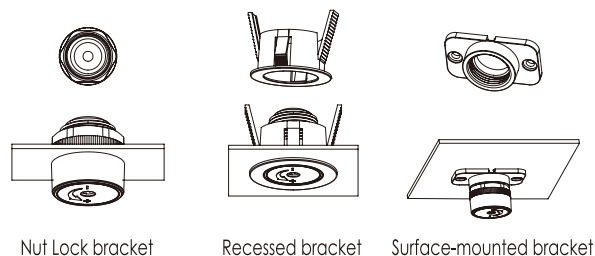

- 内置高灵敏度光感应传感器
- 自动检测环境亮度，并自动调光
- 光感应阈值可调节
- 感应角度大，范围广
- 可与1-10V驱动、微波感应器组合使用
- 超小尺寸，匹配各种通用灯具产品
- 安装简便，支持多种安装方式

Parameters:

Model No. 型号	SL01A
Control voltage 控制电压	1~10V
Ambient light threshold 感应阈值	10~500lux
Control line 控制线	red + black -
Operating temperature 操作温度	-20~+50°C
Viewing angle 感应角度	90°
Fixing centre D 安装孔距	Ø20mm
Cable length 接线长度	70cm
Max. permitted cable length 最大线长	20m
IP rating 防护等级	IP20
Max. output current 最大电流	50mA
Max. number of ECG in control 最多接入数	40 pcs

Standard accessories:

Wiring:
